

“Our ITEF grant was the spark, and now we have a fire!”
“There was so much excitement around the initial year of learning, that it has now become the permanent way of how we teach. Originally, our grant items were in an unused classroom. Last year, our building expanded, and when the middle school science lab was moved, the elementary was given the old science lab as a permanent home for our grant items and even more science items.” Tracy Brosch, Sunrise R IX
